Creation

God made the wondrous earth,
And to all life gave the gift of birth.
Then came the light, moon, planets and stars-
Neptune, Jupiter, Pluto and Mars.
The oceans came next full of plants and fishes;
Everything was happening according to God's wishes.
Then he made fruit and vegetation,
Finally, man completed his extraordinary creation.

Katie Bird, Year 6

Creation

God said, "Let there be light!"
And WOW! You should have seen the sight!
When all creation came from nought
Except that one Word that he thought.
Later on he made mankind.
How great is GOD with such a mind!

Me

In the beginning God had a plan and I was part of it!

I was born on 11th January 1990, but I began life on the 1st March 1989. I was a late baby by ten days. When I was in my mother's womb I sucked my thumb for my first time. When I was 8 weeks I was about 4cm long. Right from the end of my third week a little heart beat. When I was 12 weeks I was 9cm long. Me as a baby took up all the available space. Every day I become more beautiful.

Me

In the beginning God had a plan and I was part of it! I was born on 9th Febuary, 1990 , but I began life on the 9th of may, 1989-the day I was conceived. The first few months of my life were spent safe inside my mothers womb. I could do somersaults and I could suck my thumb. My delivery was a forceps. My weight was 3090g 6lb 13oz. My length was 52cm. When I was eight weeks old I was 4cm. I made my own blood when I was 5 weeks old. My heart started beating when I was only just 3 weeks old. Every month I grow bigger. After 9 months I was born into this big world.

Creation

God created heaven and earth
Sea-monsters and lots of birds
More recently he gave me birth.
With love God made all through his Word,
And wants us now to spread good news
To everyone who has not yet heard.
